

SPRAYERSECTIONCONTROL XML HELPER

MANUAL

The screenshot shows a web-based application titled "SprayerSectionControl - XML Helper". On the left side, there are input fields and a radio button group. On the right side, there is a large text area for output. Numbered callouts (1-7) point to specific elements: 1 points to the "WorkArea Count" spinner (set to 9); 2 points to the "Index Start" text box (containing "0>0|9|%d"); 3 points to the "Index Width" text box (containing "0>0|9|%d|0"); 4 points to the "Index Height" text box (containing "0>0|9|%d|1"); 5 points to the "i3dMappings" radio button; 6 points to the "Generate" button; 7 points to the large output text area.

- 1 – WorkArea Count: Enter how many workAreas you have created in the i3d.
- 2 – Index Start: Template for the i3dMapping workAreaStart
%d is a placeholder which is replaced by 0, 1, 2, etc.
- 3 – Index Width: Template for i3dMapping workAreaWidth
- 4 – Index Height: Template for i3dMapping workAreaHeight
- 5 – Output selector: Select which text should be generated: i3dMappings, workAreas or the <sprayerSectionControl> part.
- 6 – Generate button: Click this button to generate text.
- 7 – Output: This box will display the output. Press right click → Copy all to copy the text to clipboard.
